

Incentive or penalty for researchers to make their publications freely accessible?

The practice of Oslo University College

The 5th Munin Conference - Tromsø Nov 25, 2010
Trine B. Haugen

Oslo University College

- Established in 1994 when 13 different state colleges merged
- Provides the largest range of professional education in Norway
- Norway's fourth largest state-owned higher education institution
- Approx. 12 000 students and 1 200 employees
- More than 30 bachelor programmes and 20 master programmes

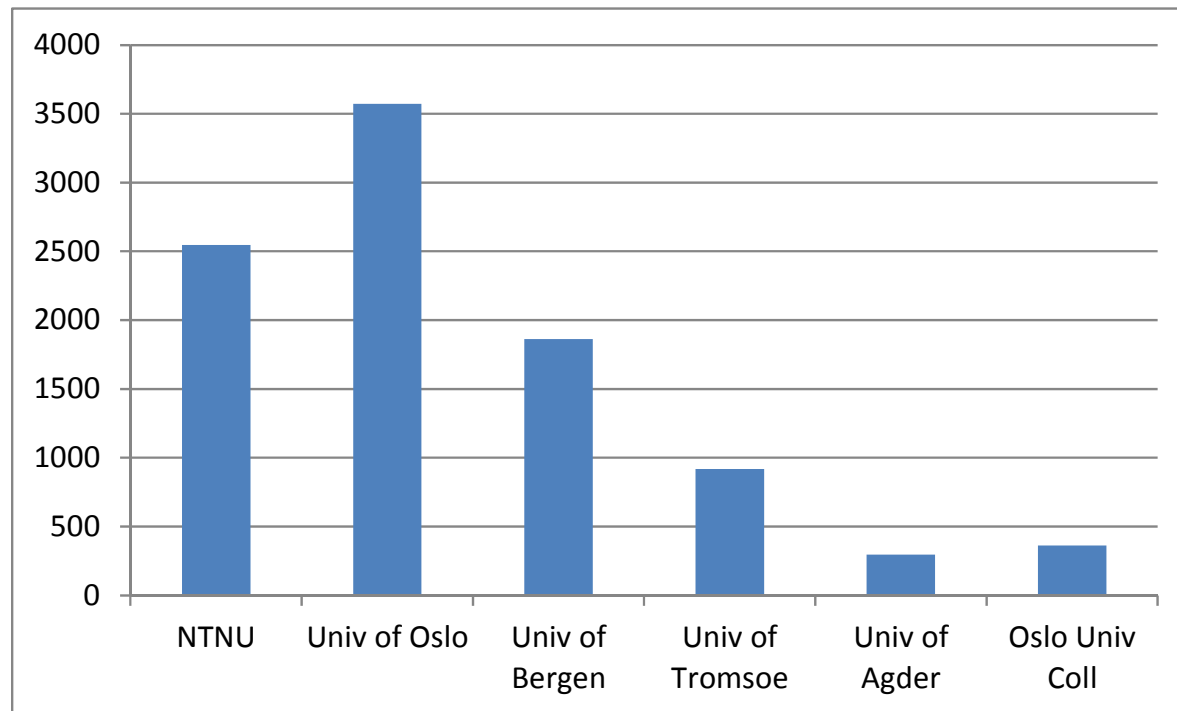

Seven Faculties and two centres

- Faculty of Art, Design and Drama
- Faculty of Nursing
- Faculty of Health Sciences
- Faculty of Engineering
- Faculty of Social Sciences
- Faculty of Journalism, Library and Information Science
- Faculty of Education and International Studies
- Centre for the Study of Professions
- Centre for Educational Research and Development

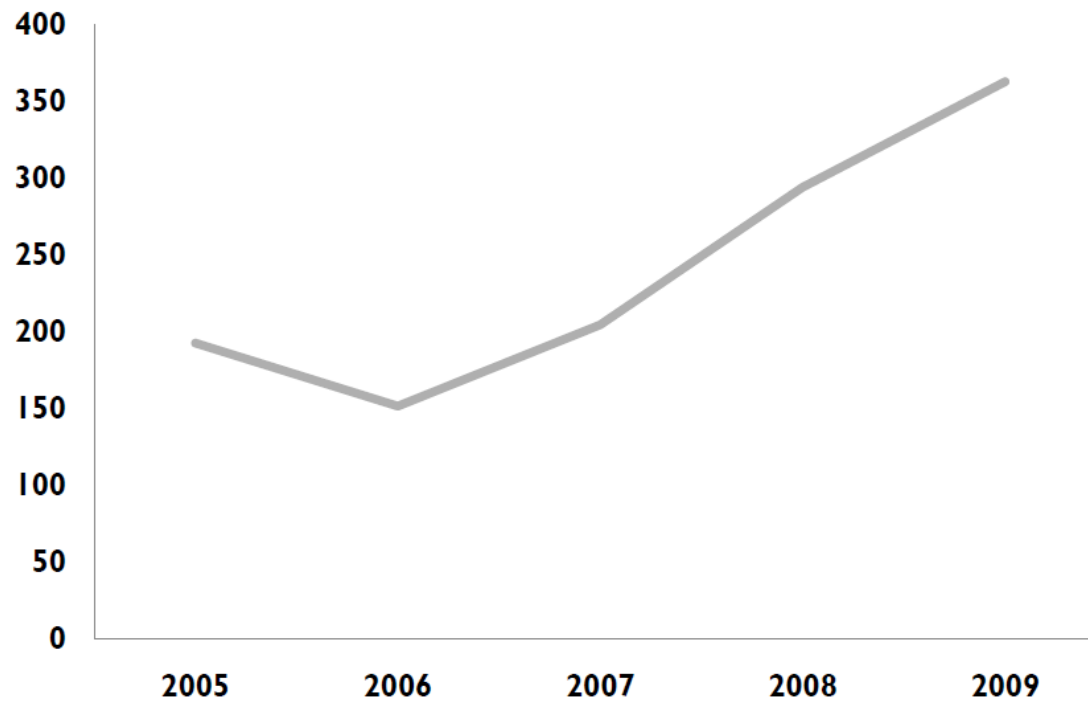

Research and Development

- Approx. 800 academic employees
- 25 per cent of professional resources used on R&D activities
- Two PhD programmes and three under development
- Profession-oriented R&D
- Multidisciplinary and interdisciplinary research

Publication points in 2009

Publication points

Incentive system

- Public funding for the published outlets based on the national documentation system
- 20% to an internal system based on dissemination

OUC's Strategic Plan (2008-2011)

OUC will conduct active and wide-ranging dissemination of R&D results to academic and scientific communities and to society at large

Internal incentive system

Category of Dissemination	Weighting
Popular science articles/chronicle/review	5
Conference presentation	3
Invited speaker	5
Textbook /popular science book	25
Report/thesis	25
Participation in the media	3
Stage presentation	3
Digital teaching material/multimedia production	10
Commercialization	
Commercial idea	5
Patent	25
Licence	25
Exhibition	
Individual, jury-assessed	25
Individual, not j.-a.	10
Collective, j.-a.	15
Collective, not j.-a.	5

Open Access at OUC

- Three open access scientific journals
- Open digital archive (ODA)

The Learning Centre is the motive power

Recommendation from a OUC working group

Open digital archive (ODA) for scientific work

- Mandatory transfer of scientific journal articles, doctoral theses, master's theses to ODA

Adoption by the OUC Board in 2008

- Establishment of ODA
- The Learning Centre responsible for the development and running of ODA
- Modification of the internal incentive system in favour of publishing in ODA

The discussion

- Concern about copyright
- Concern about size of volume when voluntary
- “Compromise” - to stimulate by the incentive system

The R & D committee 2009

- All peer-reviewed journal articles be made available in ODA as quickly as possible after publication, provided that the publisher allows self-archiving of the scientific work
- When an article is not transferred to ODA, the money allocated to the faculty based on this publication, is reduced by 50%. To be made effective for articles published after 1.1.2010.

Adopted by the Board in 2010

ODA - opened in mid-June 2010

Per 22.11.2010:

- 258 documents
 - 105 peer-reviewed
 - 153 master's theses
 - 83 articles
 - 21 book chapters
 - 1 book

Incentive Scheme

- 174 scientific journal articles published in 2010 have been registered in Frida.
- 99 of these are uploaded in fulltext, 56,9%!
- 45 of the 99 articles are so far published in ODA. 5 are waiting to be published.
- 32 articles still awaiting copyright clearance.
- Since ODA opened 242 full-text documents have been uploaded through Frida. 105 of these are published, including 11 with embargo.

Journal articles in the Norwegian institutional repositories (22.11.2010)

NTNU (DiVA, opened in 2000?) – 90 journal articles (0 in NORA)

University of Oslo (DUO, opened 2002) - 179 journal articles

University of Bergen (BORA, opened 2004) - 368 journal articles

University of Tromsø (Munin, opened in 2006) - 237 journal articles

University of Agder (AURA, opened in April 2009) - 84 journal articles

Oslo University College (ODA, opened in June 2010) - 83 journal articles

To keep up the good work

Keys to success: Information and support to the staff
