

Transparency and collaboration at the heart of new developments at Crossref

Mission

Crossref makes research outputs easy to find, cite, link, assess, and reuse.

We're a not-for-profit membership organization that exists to make scholarly communications better.

What's new?

Preprints, peer reviews and data citation

- 80,707 preprints registered with Crossref. Where possible, these link to the published version (and vice versa in some cases)
- 13,659 peer reviews, letting them be cited persistently and linked to the relevant content
- Working with DataCite to promote data citation to provide transparency and aid reuse of content

How to love (your) metadata

Participation Reports

- Launched in June 2018
- An open and free report - anyone can check
- Allows you to see all of the metadata coverage of any Crossref member
- Includes 10 metadata checks
- In beta
- New releases will have additional features

How good is your metadata?

Helping members deposit richer metadata

- Metadata Manager launched in beta in July 2018
- Aims to:
 - Simplify and streamline the Content Registration service, with a user-friendly interface
 - Give members greater flexibility and control of metadata deposits
 - Supports users who are less familiar with XML
 - Helps boost metadata quality, and encourage cleaner and more complete metadata records
