*2<sup>nd</sup> Call for Papers – NACW 2008*

12<sup>th</sup> North American Caribou Workshop  
November 4<sup>th</sup>-6<sup>th</sup>, 2008  
Happy Valley - Goose Bay, NL, Canada

The technical committee for the 12<sup>th</sup> North American Caribou Workshop invites submissions for original research paper and poster presentations for this year's workshop. Please forward abstracts in MS Word format to [rotto@swgc.mun.ca](mailto:rotto@swgc.mun.ca). Please insure you indicate preference for presentation or poster format. Deadline is 1<sup>st</sup> July 2008.

The theme of this years workshop is "Integrating Understanding Across Ecotypes", a theme particularly relevant to a province home to four Rangifer ecotypes. From threatened sedentary woodland caribou of central Labrador to mountain caribou of the Torngats, from the migratory George River herd to the woodland caribou of Newfoundland, our diversity is our blessing and our challenge.

Happy Valley - Goose Bay is the hub of the Labrador portion of the province. A progressive community of approximately 7500 people, it is serviced by air from the larger communities of St. John's, Halifax, and Montreal. Please join us for what promises to be an exciting conference, and the unique experience and culture of Labrador.
