

# RANGIFER

---

Special Issue 2012 No. 20

---

Contents	Page
<i>The 13<sup>th</sup> North American Caribou Workshop, Winnipeg, Manitoba, Canada, 25–28 October, 2010</i>	
Preface.....	9
Organization.....	11
<b>Pre-conference Event – Talking Circle</b>	
<i>Overview by the Aboriginal Talking Circle Coordinating Team</i>	
Deborah Simmons, Walter Bayha, Danny Beaulieu, Daniel Gladu, & Micheline Manseau – Aboriginal talking circle: Aboriginal perspectives on caribou conservation .....	17
<i>Special Communication</i>	
John B. Zoe – A giant step forward: Notes from the Aboriginal Talking Circle.....	21
<b>Plenary Session – Knowledge and wisdom to assist with caribou management and land use planning efforts</b>	
Walter Bayha – Using Indigenous stories in caribou co-management .....	25
Chris Johnson – Thresholds or intractable complexity – Is there a middle ground for effective conservation and management of wild <i>Rangifer</i> ? .....	31
Philip D. McLoughlin – Uniting population and habitat analysis to better manage ungulate populations .....	33

## Symposium – How does knowledge inform management decisions of barren-ground caribou

Walter Bayha – Barren-ground caribou management in the Sahtu Region: Bridging traditional knowledge and science .....	37
Nicole Gougeon – Co-management of the migratory caribou herds in northern Québec: The perspective of the Hunting, Fishing and Trapping Coordinating Committee.....	39
Joseph Judas & Jody Snortland – Using dual knowledge systems to inform management decisions: a Wek'èzhì Renewable Resources Board example.....	47
Joseph Judas – Tłıchǝ stories for Ekwǝ management .....	49
Joe Tetlichì – Caribou management in times of uncertainty .....	53
Albert Thorassie – Assessing management needs and priorities for caribou management in an era of decline and uncertainty: challenges of the Beverly and Qamanirjuaq Caribou Management Board .....	55

## Co-management – traditional knowledge and governance

Danny Beaulieu – Dene traditional knowledge about caribou cycles in the Northwest Territories .....	59
John B. Zoe – Ekwǝ and Tłıchǝ Nàowo / Caribou and Tłıchǝ language, culture and way of life: An evolving relationship and shared history.....	69
Fred Sangris – Renewing our traditional laws through joint ekwǝ (caribou) management.....	75
Gabriel Nirlungayuk – “They’re going to come back” .....	81
Devalynn Pokiak – Surviving with tuktu (caribou).....	83
Robert A. Ruttan – New caribou crisis – then and now .....	85
Doug Urquhart – The Null Hypothesis: Co-management doesn’t work .....	103

## Symposium – Innovative approaches to woodland caribou management

Fiona E. Scurrah & Doug W. Schindler – Towards a Manitoba Hydro boreal woodland caribou strategy: Outcomes from Manitoba Hydro boreal woodland caribou workshop.....	115
Dale Seip & Chris Ritchie – Mountain caribou recovery plan for British Columbia .....	125
Martin-Hugues St-Laurent & Christian Dussault – The reintroduction of boreal caribou as a conservation strategy: A long-term assessment at the southern range limit .....	127
Wayne Thorp – Woodland caribou management and industrial development in West Central Alberta: Can we have both? .....	139
Jim Webb – An ATK-based approach to management of critical caribou ranges in northern Alberta .....	141

## Caribou conservation and recovery

Ted (E.R.) Armstrong, Michael Gluck, Glen Hooper, Iain Mettam, Gerald D. Racey, & Marc Rondeau – Caribou conservation and recovery in Ontario: development and implementation of the Caribou Conservation Plan..... 145

Jennifer L. Shuter & Arthur R. Rodgers – Delineating demographic units of woodland caribou (*Rangifer tarandus caribou*) in Ontario: cautions and insights..... 159

Mark Bradley & Lalenia Neufeld – Climate and management interact to explain the decline of woodland caribou (*Rangifer tarandus caribou*) in Jasper National Park..... 183

## Methods – Population surveys, home range sizes, remote sensing

Nicola Koper & Micheline Manseau – A guide to developing resource selection functions from telemetry data using generalized estimating equations and generalized linear mixed models..... 195

Natasha L. Carr, Arthur R. Rodgers, Steven R. Kingston, Peter N. Hettinga, Laura M. Thompson, Jennifer L. Renton, & Paul J. Wilson – Comparative woodland caribou population surveys in Slate Islands Provincial Park, Ontario..... 205

Troy M. Hegel, Kyle Russell, & Thomas S. Jung – Using temporary dye marks to estimate ungulate population abundance in southwest Yukon, Canada..... 219

Alexandre L. Vignault Rasiulis, Isabelle Schmelzer, & Christian G. Wright – The effect of temporal sampling regime on the characterization of home range for female boreal woodland caribou (*Rangifer tarandus caribou*) in Labrador, Canada..... 227

## Methods – Population Biology / Ecology

Christine Cuyler, Robert R. White, Keith Lewis, Colleen Soulliere, Anne Gunn, Don E. Russell, & Colin Daniel – Are warbles and bots related to reproductive status in West Greenland caribou?..... 243

Anne Gunn, Kim G. Poole, & John S. Nishi – A conceptual model for migratory tundra caribou to explain and predict why shifts in spatial fidelity of breeding cows to their calving grounds are infrequent..... 259

Kenneth F. Abraham, Bruce A. Pond, Susan M. Tully, Vicki Trim, Daryll Hedman, Chris Chenier, & Gerald D. Racey – Recent changes in summer distribution and numbers of migratory caribou on the southern Hudson Bay coast..... 269

Hugh S. Robinson, Mark Hebblewhite, Nicholas J. DeCesare, Jessie Whittington, Layla Neufeld, Mark Bradley, & Marco Musiani – The effect of fire on spatial separation between wolves and caribou..... 277

Tyler D. Rudolph & Pierre Drapeau – Using movement behaviour to define biological seasons for woodland caribou..... 295

David M.A. Wiwchar & Frank F. Mallory – Prey specialization and morphological conformation of wolves associated with woodland caribou and moose..... 309
