

utnyttjande av dessa för forskningsändamål
 - Sammanfatta nuvarande kunnskap (litteraturgenomgång) samt anordna symposium med nyckelpersoner ca. 1½ år etter projektstart.

Etappe 2 (3 år):

- Utvärdering av material
 - Syntes av delkunnskap i produktionsmodeller
 - Ev. avslutande symposium eller seminarium.

Prosjektutvalget foreslo en personramme på ½ person pr land med kompetense innen ADB, populasjonsdynamisk metodikk, statistisk analysemetodikk og/eller spes. reindriftsspørsmål. Samlet utgift beregnet til SEK 295 066.

Det var enighet i NOR om at prosjektet var sentralt og burde oppfølges. Arbeidsutvalget fikk i oppdrag å komme med forslag til det videre arbeide. Arbeidet innenfor feltet er allerede igang i Norge. Sverige og Finland har satt igang tiltak for å utarbeide et egnet merkeksystem.
